

MAYOR'S CORNER

Outstanding Riverdale Citizen

Thank you, Councilor Doug Peterson for your hard work, persistent efforts, and extraordinary lobbying efforts at the capitol! During last year's state legislative session we lobbied against, but lost sales tax revenues with the passage of Senate Bill (SB) 35. This year we went back to try to get the base year changed on the phase-out formula from '04/'05 to '05/'06 through SB 170. This change would mean nearly \$400,000 per year more in sales tax revenues to use for our core services. This is very critical not only to us but to about ten other "hold harmless cities" as well.

Although SB 170 passed without the amendment we requested during this session, Riverdale has a firm commitment through Doug's efforts from one of the principal co-sponsors of SB 170 to sponsor action in the next session to adopt the amendment we requested. This action appears, by intent, to have the support of the Utah League of Cities and Towns and both the House and the Senate. This would benefit Riverdale as well as the other hold-harmless cities.

As Mayor, I felt it important to make you aware of the extremely hard work and supreme effort of Councilor Peterson. He has led the charge and the battle; he has many contacts and friends at the Capitol from the time he served in the House. He has tapped into all of the resources, made numerous calls and many personal contacts. We also greatly appreciate the legislative support we received and in particular would mention the efforts of Rep. Brad Dee who represents our district and House Speaker Greg Curtis.

This month it is fitting and appropriate to recognize Doug Peterson as "Outstanding Riverdale Citizen" "Thanks" Doug!

And thanks to all of you for what you do to make our City Great.

Bruce Burrows
Mayor

ROAD IMPROVEMENT PROJECTS

In our March newsletter last year we announced the beginning of the reconstruction of 300 West. The project was completed last fall and has improved traffic flow, beautified the area, and improved safety. 300 West is now two lanes in each direction. Also included in the reconstruction was sidewalk, curb and gutter, street lighting and landscaping.

With the 300 West reconstruction behind us we now look toward other road improvement projects now taking place or scheduled in the near future.

Current Major Projects

I-15 NOW Project—This project on I-15 from the I-84 interchange north to Farr West continues to be ongoing. The project will add additional lanes of travel in each direction. The scheduled completion for the project is September of 2008. Also included in the project will be a sound wall stretching from 4400 South to the north end of Parker Dr.

I-15 Lane Gain Project—This project has just begun. It will add a lane of travel from the exits to the onramps between the following interchanges: Riverdale (Exit 339) to Roy (Exit 338), Sunset/Clearfield (Exit 335) to Clearfield (Exit 334), and Syracuse/Layton (Exit 332) to Layton Hills (Exit 331). There will be lane restrictions during the project which is scheduled for completion in July of 2007.

Updates on these two projects can be found on the city website at www.riverdalecity.com.

Future Major Projects

Riverdale Road—Scheduled to begin in 2008, this project will widen Riverdale Road to three lanes of travel in each direction from near Washington Blvd. to 1900 West. The project is under the direction of UDOT. To keep traffic flowing and reduce delays, UDOT has committed to keeping two lanes of traffic open in each direction during construction. Preliminary work may begin this year on the I-84 interchange. More information about the project can be found at www.udot.utah.gov/riverdaleroad.

Please exercise caution and patience as you travel in the construction zones. There may be inconveniences during the construction periods, but the end result of these projects will be reduced traffic congestion and improved safety.

PROTECT YOURSELF FROM FIRE DANGER

By Fire Chief Doug Illium

We have had too many fire related deaths in the United States this year. We hear on the news all too frequently about someone that has lost their life in a structure fire at their home. The following is a list of things each one of us can do to help prevent this from happening in Riverdale.

- Check smoke and carbon monoxide alarms to be sure they are working properly.
- Have an escape plan with a meeting place.
- Once you exit your home, DO NOT return. Too many people lose their lives going back into a burning home.
- Stoves are not made for heating homes.
- Supplemental heating devices should be used and maintained in accordance with manufacturer recommendations. Keep combustibles clear. Do not leave supplemental heating devices unattended.
- If you are burning wood in your fireplace, make sure your chimneys are properly maintained. Keep your furnace maintained as well.
- If candles are necessary, use them in a safe environment in a fireproof container and away from children. Do not leave them unattended.
- And for the long term, consider getting a residential fire sprinkler. According to statistics, the risk of death by fire is reduced by 82 percent when smoke detectors are accompanied with residential fire sprinklers.

Please conduct a self evaluation of your home. Lets be 'Fire Wise' so we do not have any fire related injuries here in Riverdale.

EASTER EGG HUNT COMING

Plan now to bring your kids to the annual Riverdale City Easter Egg Hunt on April 7th at 9:00 a.m. sharp at the Riverdale Park. Kids ages 16 months to 10 years old are invited to come for fun and the chance to win a prize. If you have any questions call the Community Center at 621-6084. Sponsored by the Riverdale City Youth Council.

SPRING CLEANUP SCHEDULED

Our spring cleanup has been scheduled for April 28th. This will be the same type of cleanup as last time, with dumpsters at three locations around the city. More details will be published in our April newsletter and online at www.riverdalecity.com.
