

2030 Plan – Revenue Review

FY2017 AUDITED GENERAL FUND REVENUES

Riverdale City Sales Tax

4.6 Develop Policy on Revenue Diversification

Principle: Develop Approaches to Achieve Goals

Element: Adopt Financial Policies

Practice: A government should adopt a policy that encourages a diversity of revenue sources.

Rationale: All revenue sources have particular characteristics in terms of stability, growth, sensitivity to inflation or business cycle effects, and impact on tax and rate payers. A diversity of revenue sources can improve a government's ability to handle fluctuations in revenues and potentially help to better distribute the cost of providing services.

Outputs: The policy should identify approaches that will be used to improve revenue diversification. An analysis of particular revenue sources is often undertaken in implementing the policy. This analysis should address the sensitivity of revenues to changes in rates, the fairness of the tax or fee, administrative aspects of the revenue source, and other relevant issues. The policy and the approach to implementation should be periodically reviewed.

Notes: Over time a government should strive to improve its revenue diversity to the extent feasible. When a government is statutorily or otherwise limited as to the types of revenues it may raise, it should consider options to enhance flexibility within the constraints of available revenue sources. For example, governments that must rely heavily on property taxes may seek to diversify the tax base on which the property tax is levied. A government should recognize that changes in the diversity of revenue sources can affect the relative tax burden on different stakeholders.

INSTRUCTIONS:

The taxes and fees in this section are in addition to the combined sales and use tax in the previous section. Only one combined rate from this section will apply to a given transaction. Please refer to Publication 25 for more information on the taxability of certain transactions.

**The municipal telecommunication license tax is a tax on the provider, not on the consumer. This rate should not be added to the combined sales and use tax rate from the previous section. If the tax is passed on to the consumer, the tax is included in the taxable base for combined sales tax purposes. See Utah Code 10-1-403 for more information.

These rate charts should not be used for sourcing sales from out-of-state sellers to locations in Utah. Out-of-state sellers should source their sales based on the ZIP +4 of the customer's address. For more information, see <https://tax.utah.gov/sales/non-nexus>

INSTRUCTIONS:

The combined sales rate for the various localities in this section applies to all taxable sales in the state. Other taxes and fees, such as transient room, short-term vehicle leasing, restaurant, telecommunications and municipal energy are in addition to the combined rate. Please see the following section for these rates. Refer to Publication 25 for more information on the taxability of certain transactions.

These rate charts should not be used for sourcing sales from out-of-state sellers to locations in Utah. Out-of-state sellers should source their sales based on the ZIP +4 of the customer's address. For more information, see <https://tax.utah.gov/sales/non-nexus>

* The tax on food and food ingredients is 3.0% statewide. This includes the state rate of 1.75%, local option rate of 1.0% and county option rate of 0.25%.

For sales of residential energy, the combined rate is reduced by 2.70%.

Part 3 Municipal Energy Sales and Use Tax Act

10-1-301 Title.

This part shall be known as the "Municipal Energy Sales and Use Tax Act."

Enacted by Chapter 280, 1996 General Session

10-1-302 Purpose and intent.

The Legislature finds that:

- (1) the energy industry has previously been highly regulated and monopolistic;
- (2) municipalities have historically raised town or city, respectively, general fund revenues by collecting franchise and business license revenues from the energy industry;
- (3) substantial restructuring of the energy industry has created an opportunity for increased competition within the energy industry;
- (4) the restructuring of the energy industry has diminished the effectiveness and fairness of the revenues collected by municipalities;
- (5) to provide for a stable revenue source for municipalities and to create a more competitive environment for the energy industry, it is necessary to enact taxing authority for municipalities that accomplishes those goals; and
- (6) this part does not alter or affect the municipalities' authority to grant or regulate franchises, or to control municipal streets, highways, or other property.

Amended by Chapter 176, 2014 General Session
